This seminar has been endorsed by APEC number 020030901 as authorised by Royal College of Nursing, Australia (RCNA) according to approved criteria.
Attendance attracts 6.0 RCNA CNE points as part of RCNA's Life Long Learning Program (3LP).

This workshop is designed to keep the patient safe and lessen the risk of nurses and midwives becoming involved in litigation and the coronial process.
In this interactive workshop, there will be an emphasis throughout on

safe documenting and the safe administration of medication.

By examining cases where patients have suffered injury from an adverse incident we can better understand how and why the incident occurred and whether reasonable care would have prevented the injury. Staff can then consider the issues and discuss strategies that could avoid or minimize risk where they work.
In this workshop we will cover the legal principles of negligence/ duty of care; consent (disclosing risks/consent forms/withdrawing consent) and restraint, then discuss the legal, clinical and hospital process issues that can arise in:

- **Accident and Emergency**
- **Medical/Surgical**
- **Paediatrics**
- **Midwifery/Neonatal**
- **Aged care**
- **Psychiatric**
- **Admission, discharge & transfer**
